

# A Place at the Table

6-week Small Group Series

**Intro:** Our table, in the heart of our home, represents a place for renewed and intentional invitation to engage one another in our personal lives. As Adam challenged us in the opening of our “Witness” sermon series, we do not have to choose between community and evangelism. We can have both. This series begins on the community end, encouraging us to increase our commitment to being in one another’s homes for the strengthening and encouragement of the body of Christ. This series ends with our tables displaying the beauty of diversity, where the church and the unsaved have both met in the same intimate place, around our tables.
